

CREATION GROANS

Yochana the Psalmist

When I ponder the expanse of the ocean
So wide and deep, I have barely a notion

Just how perfect HE formed all this to be
Everything amazing, another world in the sea

I know so little, I can barely fathom
His work of creation, how it all happened

I only know what I read and heard
His story of creation as set forth in His Word

G_D gave us the story, His own account
Of what we need to know, not to discount

For many it seems too hard to believe
But those who are His will choose to receive'

Adam was created to tend the creation
He lived in Eden amongst beautiful vegetation

He had a helpmate, she his Ezer
Together they worked, took good care

We too should take care of this earth, so nice
Even though now it be filled with strife

Mankind has not cared for the earth as they should
Disorder and chaos has invaded the good

CREATION GROANS

Yochana the Psalmist

Now the earth seethes with evil corruption
Consequences of man's ignorant assumptions

That the earth will simply take care of itself
No personal regard, leave it to someone else

Those which were created on Day five
Are suffering disease, barely remain alive

They suffer and succumb to mankind's folly
Of pollutants and filth and all that is unholy

Oceans polluted with radiation
Causing even greater degradation

Scores of creatures lying dead on the sand
Surely this was never G_D's plan

The creation that rejoiced, praised and yearns
Now groans in awaiting Yeshua's return

It awaits for G_D's kingdom to come to the earth
For Yeshua Himself to give life new birth

The trees of the fields will clap their hands
When Yeshua and His people return to the land

But not until the cleansing comes first
Yeshua in judgment scorching the earth

CREATION GROANS

Yochana the Psalmist

Cleansing by fire, this time around
The first by a flood of world renown

Even man has corrupted his seed
Mixing in profane, such evil deeds

Hasatan has his hand in this evil scheme
He and his workers making men unclean

How far will man go to be just like G_D?
No satisfaction with what He made good

There be no stopping the evil, now it has started
Just like the days of Noah when righteousness departed

This is not new, we know before it has happened
When Nimrod and others built a stairway to heaven

G_D stopped them right in their tracks
Confusing their language, only babble for talk

Mixing the seeds, the world calls that progress
G_D forbids it, it goes against holiness

So much profanity for medical reasons
Changing DNA and creating diseases

Now the pressure to get immunized
Then for the old, time to euthanize

CREATION GROANS

Yochana the Psalmist

Wanting to be like G_D, man keeps trying
With science to live longer and stop dying

Just like in the beginning in the garden
The great lie to man from satan

Evil is spinning out of control
Not much different than the days of old

For what once has happened is yet to be
Cycles of history, again we will see

So listen to the prophets of biblical renown
They tell the truth this second time around

Events which happened before will happen again
No doubting this, it's just a matter of when

So be prepared, turn to G_D and live
Embrace Yeshua, His salvation He gives

Get ready for the coming judgment and cleansing
Creation is groaning begging its mending

The earth is waiting for Yeshua's return
Until that time it moans and churns

All creation looks forward to that day
When Yeshua burns all corruption away
