

Counting

Yochana the Psalmist

It started long ago – when teacher said that we should count
Lift up G_D each day – our praise for HIM pronounce
Don't count just haOmer – listen to a Beloved King Daveed
HaSHEM has us count kol yamim – yes this advice we heed

Each and every day – the aliyah moves along
G_D does show HIS mercy – in chapter, verse and song
Scripture it does bend – the very space and time we know
Scripture is alive – showing us how to go

Have you ever really walked with Yeshua
Yes HE is the living Torah
Watch your life in the patterns told
Amazingly each day - does life in HIM unfold

How does your aliyah begin – yes how does it start
Is it orchestrated by man – or does G_D set you apart
Do you simply stay on schedule – each week and every year
Do you venture into HIS ways – or simply follow a man you hear

Do your teachers seek to count – all the days alive
Do the teachers seek in Scriptures – the patterns to live and thrive
The Torah first and foremost – it be about upholding precious life
G_D doth surely want for us – shalom without the strife

Good teachers speak of Torah - and doing the commands
But do your teachers know what is happening - do they understand
That Torah is entwined - with the testimony of living
That Torah is also blessing and signs - that ABBA keeps on giving

Are you comfortable with schedules - or simply gathering on Shabbat
Life is so much more - than ritual is it not?
Are shepherds readying for storms - all you sons and daughters
Or is it sadly business as usual - this shall result in slaughter

Counting

Yochana the Psalmist

Now glory its for sure - for those who shall withstand
Those saints who shall perish - by onslaught of olam and wicked man
But witnesses be needed - a special aliyah it be next
For some believers who are called - please find who G_D selects

Counting be so important - part of aliyah that is given
To those who be separated - for those chosen to go on living
All things be in G_D's hands - this we know for sure
But survival call the Psalmist issues - for some to live and still endure

So count your days each one - your aliyah from birth
Knowing soon that our Yeshua - is coming back to Earth
Make record of the journey - so then you shall be able to testify
When Beloveds sing HIM back - Barukh Habah b'SHEM ADONAI

Psalmist calls just not to Beloveds - yes the ones who are sealed
Psalmist calls to other elect - to whom truth is revealed
Find each other this be the charge - for now the time is short
How the Psalmist doth so pray - that some believe the Psalmist's report
